David Tran
CEO, Optelos

They delivered a high-quality platform and the feedback has been overwhelmingly positive. Experienced and knowledgeable, Flatlogic exceeded expectations, while their ability

Lee Decker
Founder, Hubsoft

WOW! An incredible team. They have developed our product faster and better than I imagined possible. Great talent and really great people to work with. The whole team organises the project really well.

Sarah Ollier
Chief Scientific Officer

How to start a project with Flatlogic?

01 Specification and description

Provide us with a description of your project. What do you expect from us? Which competencies do you need? Will there be a specification of features?

02 Time effort

When do you want to start the project? How long do you need us? Full time or part time?

03 Project management

How do we receive tasks from you? Will there be any project management from your side?

04 Legal stuff, payments and price

We sign a contract and an NDA with you. You will need to pay at the end of each month for the previous month. The rate is usually \$50-\$60 (€45 - €55) depending on your project scope and currency preferences.

Prepayment is 15-20% of the initial project estimation.
